

CURRICULUM VITAE

FRANCESCA GRAZIANO MD

2016

7/12/17

GENERAL

Name: FRANCESCA GRAZIANO
Nationality: ITALIAN
Date of Birth: 1st June 1982
Place of birth: Palermo (Sicily)
Address: 31 T. De Filippo st, 90135 PA
Telephone: +39 3935684317
E-mail: Francesca.graziano82@pec.it;
francesca.graziano03@unipa.it

Italian medical license

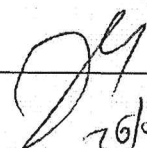

22/02/2008 N° 13940

Degrees & Qualifications

Consultant in Neurosurgery December 16, 2014
Specialist in Neurosurgery March 19, 2013
Medical Doctor July 25, 2007

EDUCATION

1997-2001 "Vittorio Emanuele II" High School,

26/02/17

Palermo

2001-2007 University of Palermo Medical School,

25 July 2007 Doctor in Medicine and Surgery (MD)
Summa cum Laude, Palermo

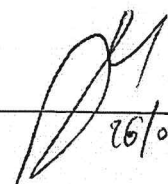

19 March 2008 Residency program in Neurosurgery,
University of Catania
Director: Prof. V. Albanese

19 March 2013 Specialist in Neurosurgery
Summa cum Laude
University of Catania

CURRENT APPOINTMENTS

December 2014 till now Consultant in Neurosurgery
Dept. of Neurosurgery,
University Hospital, Palermo, Italy;
Chairman: Prof. G.D. Iacopino

November 2015 till now Secondo anno del XXXI ciclo del
Dottorato di Ricerca Internazionale in
Biomedicina e Neuroscienze, Università
degli Studi di Palermo (durata: 3 anni):
Titolo progetto: *HEAT SHOCK PROTEIN
LEVELS IN TISSUE AND CIRCULATING
EXOSOMES IN HUMAN BRAIN TUMORS
BEFORE AND AFTER ABLATIVE
SURGERY*

26/02/19

November 2016 till now

Corso di Alta Formazione in
NeuroInterventistica I (procedure
angiografiche), University Study La
Sapienza, Rome.

PREVIOUS APPOINTMENTS

December 2013-July 2014

Neurovascular Fellowship in
Neurosurgery
Royal London Hospital
Barts Health NHS Trust, London

January 2011- November 2013

Dept. of Neurosurgery,
University Hospital, Palermo, Italy;
Chairman: Prof. G.D. Iacopino

April 2012-Agust 2012

Visitorship Dept. of Neurosurgery
(Director: Prof. M. Cenzato)-Dept. of
Neuroradiology (Director: Dott. E.
Boccardi) A.O. Niguarda Ca' Grande,
Milan

July 2009 – January 2011

Fellowship in microneurosurgical
anatomy;
Director: Prof. Arthur J. Ulm III
Louisiana State University –
Dept. of Neurosurgery
New Orleans, USA

March 2008-July 2009

University Hospital, Catania, Italy;
Residency Program Rotation

26/02/17

September 2007-April 2008

Chairman: Prof. V. Albanese

University Hospital, Palermo, Italy;
Chairman: Prof. G.D. Iacopino;

1 August – 1 September 2006

Department of General Surgery
"Dr. José Eleuterio Gonzales" Hospital of
Monterrey, Mexico (IFMSA)

1 August – 1 September 2004

Department of Neurology
"Morales Hospital", Murcia, Spain
(IFMSA). Prof. Villaverde

MD thesis

"Neuroprotection by erythropoietin nad darbepoetin alfa following experimntal intracerebral haemorrhage" Intracerebral hemorrhage (ICH) is a devastating clinical syndrome for which no truly efficacious therapy has been identified yet. In preclinical studies, we have found that erythropoietin (EPO), administred in its recombinant form (rHuEPO) provides remarkable benefit in several models of brain and spinal cord damage. In this study we investigated the neuroprotective effects of EPO and its long-lasting derivative (Darbepotin-alfa) in a experimental ICH model in the rat. Using these drugs, we asked whether a rHuEPO daily dose (1000 UI/kg-bw, i.v.) or a Daebepoetin-alfa weekly dose (10 μ g/kg-bw i.v.), administered 5 minutes after ICH induction, provides any benefit as assessed by neurological outcome and histopathological investigations. Male Wistar rats were anesthetized by an intramuscular injection of ketamine and placed in a stereotactic frame. A burr hole was performed by using a microdrill under microscopic control. A 30-gauge needle has introduced into the right striatum (3 mm lateral to midline, 1 mm anterior to bregma, depth 3.5 mm below the surface of the skull) and 10 μ L of autologous blood, taken from the tail vein, injected over 1 minute. All animals were sacrificed 15 days after ICH was induced. Treatment with rHuEPO and Darbepoetina-alfa largely prevented neurological deterioration and reduced neuronal damage as compared with saline-treated animals. Mean hemorrhage volume was also decreased in ICH + rHuEPO and Darbepoetina-alfa groups as

29/01/17

compared to saline. This study provides evidence that treatment with rHuEPO and its long-lasting derivative may be a beneficial therapeutic approach to reduce post-ICH morbidity.

Specialization in Neurosurgery Thesis

“Vertebrobasilar junction aneurysms: anatomical morphology, pathogenetic alterations and therapeutic strategies”. The treatment of vascular lesions of the vertebrobasilar junction (VBJ) remains a challenging task in the neurosurgical practice and the gold standard therapy is still under debate. In this study, the microsurgical and endovascular treatments of vascular lesions located at the VBJ are presented and, the rationale, advantages and disadvantages of each therapeutic modality are discussed. Through a detailed post-mortem analysis of a VBJ giant aneurysm (GA), the authors describe and show the most suitable skull base approaches to expose the aneurysm. Moreover, a retrospective review of all cases of vascular lesions located at the VBJ treated at the Department of Neuroradiology at the Niguarda Ca' Grande Hospital was conducted. Clinical presentations, angiographic features and clinical outcome (with modified Rankin Scale [mRS] scores) at long term follow-up were reported as well. No combination of surgical approaches adequately exposed the neck, proximal vertebral artery (VA) and distal basilar artery (BA) in the VBJ GA. For small aneurysm at the VBJ, only coils were efficient in occluding the lesion in most of the cases. For large or giant aneurysms, flow-diverter devices with endosaccular coils embolization seemed to represent the most suitable with lesser risks treatment option. Aneurysm morphology, location and patient specific angio-architecture are the principal factors to be considered in the management of VBJ giant aneurysms. Parent artery reconstruction using flow-diverter is a feasible, safe and successful technique for the treatment of vascular lesions at the VBJ. Further studies, with longer follow-up, are encouraged to assess real advantages and limitations of this promising modality.

ATTENDED COURSES

1. 20-21 January 2009

Treatment in traumatic injury and in degenerative disease of the vertebral column.

26/02/17

(AOSpine Courses), Milan, Italy;

2. 14 October 2009
Endoscopic approaches in Neurosurgery
(Director: A. Montinaro)
Practical course. Lecce, Italy
3. 08 October 2009
Minimal invasive approaches in spine surgery
New Orleans, LA, USA
4. 25 October 2009
Open Aneurysm Surgery: A 3-D
Practical Course
(Directors: B. G. Thompson, Jr. M. T. Lawton)
CNS Pre-meeting practical course
New Orleans, LA, USA
5. 26 October 2009
Ruptured Aneurysm Treatment: Open and
Endovascular Management
CNS Luncheon Seminar
New Orleans, LA, USA
6. 27 October 2009
Skull Base Approaches
(Director: Philip V. Theodosopoulos)
CNS Luncheon Seminar
New Orleans, LA, USA
7. 28 October 2009
Spine Trauma and Spinal Cord Injury
(Director: M. N. Hadley)
CNS Luncheon Seminar
New Orleans, LA, USA
8. 19-23 April 2010
Microsurgical Approaches to the Brain,
Ventricles And Skull Base
(Directors: Albert L. Rhoton, Stephen Lewis)
Gainesville, Fl, USA

26/01/19

9. 1 May 2010
3-D Anatomy and Approaches to the
Supratentorial Area And Anterior Skull Base
(Director: Albert L. Rhoton)
AANS Practical Clinic Course, Philadelphia,
PA, USA
10. 2 May 2010
Microsurgical Management of Intracranial
Aneurysms: Site Specific Surgical Anatomy,
Operation, Intervention and Complication
Management
(Director: Arthur Day)
AANS Practical Clinic Course, Philadelphia,
PA, USA
11. 3 May 2010
Advances in Carotid Diseases: Surgery vs
Endovascular Therapy
(Director: Robert E. Harbaugh)
AANS Practical Clinic Course, Philadelphia,
PA, USA
12. 4 May 2010
Management of Vasospasm
(Director: Peter D. Le Roux)
AANS Practical Clinic Course, Philadelphia,
PA, USA
13. 6 May 2010
Surgical Approaches to the Lateral Skull Base
(Jeffrey J. Olson)
AANS Practical Clinic Course, Philadelphia,
PA, USA
14. April 2011
3-D Anatomy and approaches to posterior fossa
and posterior skull base. AANS Practical
Clinic Course, Denver, CO, USA
15. April 2011
Interventional neurovascular disease.

6/1/20/92

AANS Practical Clinic Course, Denver, CO,
USA

16. April 2011

Operative nuances for cranial and skull base
procedures. AANS Practical Clinic Course,
Denver, CO, USA

17. 12-15 May 2011

International Hands-On Course: Surgery of the
cerebello-pontine Angle
San Raffaele Institute-Dept. Of Neurosurgery
(Director: Pietro Mortini)

18. 03-08 June 2012

The 12th Helsinki Live Demonstration Course in
Operative Microneurosurgery
(Director: Prof. J. Hernesniemi)
Helsinki, Finland

ATTENDED CONGRESSES and COURSES as FACULTY

1. 21-23 May 2009

XXXII National Meeting of the Italian Spinal
Surgery Society
Punta Sampieri, Ragusa, Italy

2. 14-15 October 2009

NASBS 20th Annual Meeting
Pre-meeting practical course
New Orleans, LA, USA

3. 10-11 September 2010

Endoscopic endonasal surgery of the pituitary
and cranial base and advanced techniques in
open skull base surgery; LSUHSC New
Orleans, LA, US

26/02/17

ATTENDED CONGRESSES

1. 12-14 June 2007
5th Italian Congress of Pediatric
Neuroradiology, Catania, Italy;
2. 22-24 May 2008
New Concepts in Neurosurgical Training:
Tips & Tricks, Taormina, Messina, Italy
3. 24-26 June 2007
56th Italian Congress of Neurosurgery,
Rome, Italy;
4. 27-30 September 2007
SINS-Italian Society of Neuroscience Congress,
Verona, Italy;
5. 6-9 November 2008
57th Italian Congress of Neurosurgery; Udine,
Venice, Italy;
6. 21-23 May 2009
XXXII Italian GIS Congress; Ragusa, Italy;
7. 14-17 October 2009
58th National Congress of the Italian
Neurosurgical Society
Lecce, Italy;
8. 24-29 October 2009
CNS Annual Meeting
New Orleans, LA, USA;
9. 15-16 January 2010
Louisiana Neurosurgical Society Annual
Meeting, Lake Charles, LA, USA;
10. 1-5 May 2010
78th AANS Annual Meeting,
Philadelphia, PA, USA;
11. 16-21 October 2010
CNS Annual Meeting
San Francisco, LA, USA;

PROFESSIONAL SOCIETY MEMBERSHIP

- American Association of Neurological Surgeons, AANS
- Societa' Italiana di Neurochirurgia, SINCH

GENERAL INTERESTS

I enjoy a variety of sporting activities: dancing, swimming, and skiing. I enjoy travelling and had travelled extensively throughout Europe, North America and Mexico. My other interests include art and cinema. I can speak fluently Italian and

26/01/12

English.

CAREER INTERESTS

My aim is to improve both my theoretical and surgical skills to gain further experience in vascular and skull base neurosurgery.
